Sailing Instructions - Amendment N. 01

Delete and replace 13.1 with:
13.1 Yachts in different classes may sail different courses each day. Yachts with slower handicaps will start before yachts in their class with faster handicaps. The starting times are determined using the ToD values on each yacht's ORCsy certificate for the declared Wind Condition (High/ Medium/Low) and Sea State (Rough/Flat) each day.

13.2 Delete and replace "between 1015 - 1045" with "between approximately 09:30 - 1045".

Delete and replace 20.3 with:
20.3 If course is shortened, the order of class finish will not determine the finishing places. The ORCsy will use Time-On-Distance scoring using the appropriate value (based on declared wind speed and sea state) to determine the order of class finish for any shortened course race.
