Tracking System Instructions

INTEGRATION TO SAILING INSTRUCTIONS #8.2 – 8.3

1   GPS tracking of individual boats will be used for safety purposes. In addition the organizers will use the Trac Trac system for public media purposes and to provide displays onshore.

2   The following safety procedure will be followed:

   a)   At registration, the RRS Safety Afterguard Member, shall personally collect and sign for their tracking device.

   b)   It is a RRS Safety Afterguard Member responsibility to check the tracking device. Do not switch off the device after racing.
   Every tracking device is provided with a battery pack in a dry box. The box shall be tighten on the sea rail using the 2 straps and the safety strop.

   c)   The tracking device must **be returned** to the race office at the end of the **last race of the series** and before the Prize Giving.

   d)   Any boat failing to comply with this procedure, without any reason beyond her control, will be reported to the race committee and/or protest committee for possible action.

PLEASE RETURN THE TRACKING DEVICE AND CHARGER TO THE EVENT ORGANIZER IMMEDIATELY FOLLOWING THE LAST RACE. IN CASE OF LOSS, THE COST WILL BE CHANGED.

MOUNTING THE DEVICE

The tracking device is provided **into it's dry box** and is recommended to be **attached to the boat on the sea rail**, ideally centrally, at the back of the boat, clear of any obstructions or other instruments, in **clear view of the sky** (for satellites) and **above the Waterline**.

Attach the device into position at the back of the boat. Secure using the strop and the two straps, so it does not hang loosely or bang around. Once mounted correctly, do NOT open the water proof box under any circumstance – the **tracking device is NOT waterproof.**

DEVICE OPERATIONS

SWITCHING ON/OFF

Press the **Switch On/Off Button** for at least 3 seconds and release it to turn on.

If you wish to switch off the device, push and hold for at least 2 seconds the **Switch On/Off Button**. **Power LED** will fast flash and then turn off, it indicates that the unit is turned off.
