Q&A

QUESTION 8: From Guardamago 2.

Would like to ask if there is an opportunity to do inshore races on **Wednesday** instead of the coastal race. Because of today I would like to advise, that it should be a good opportunity to get enough inshore races.

ANSWER 8:

The decision to change or not change the kind of races to be run on Wednesday, June 29 would be made no later than tomorrow, June 28 at 2100 hrs (as per SI 1).

QUESTION 9: From Daguët

Is it an option to have a coastal race tomorrow (like 2 inshores + 1 coastal) or will we race only inshore races ? (Need to know it in order to choose which sails we will take)

ANSWER 9:

The schedule for tomorrow, June 28 is to run windward-leeward races. The only change to the schedule for tomorrow was the first warning signal time (SI Amendment 3).
